

Red Rock Canyon National Conservation Area

Environmental Education Program

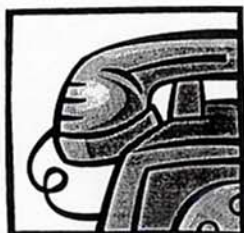

If your group is planning a trip to Red Rock Canyon please be aware of the following options available. Groups can either attend a Ranger led program or take a hike on one of our trails. If you would like to do both you must be able to spend more than five hours away from your school. Only one school bus or the equivalent number of students will be scheduled per option per day. Teachers who take their students on the trails must have attended the Explore the Great Outdoors Workshop (EGO) or get a waiver prior to coming with your group.

Transportation Scholarships are available for qualified EGO trained teachers !!!

Option 1: Spend your entire field trip on the trail ! From 10:00 a.m. – 12:00 p.m. your class will be the only group scheduled on the trail and at a picnic area. Lost Creek Children's Discovery Trail or the Pine Creek Trail are popular choices. **An EGO trained teacher is required for each bus.**

Option 2: Spend your entire field trip with a Ranger in a curriculum-based program. Your class will have the opportunity to tap into the resources that the visitor center, trails, and BLM staff has to offer. Lunch will generally be at the Visitor Center or on the trail, depending on the program. Grade specific lessons will utilize a weather station, tortoise habitat, exhibits, and trails near the visitor center. The EGO workshop is NOT required for this experience. Tuesday through Fridays only. **GROUP SIZE IS LIMITED TO 40 STUDENTS.**

We will start taking reservations for September through December on June 1st. Reservations for January through June will begin September 1st. You can call the visitor center at (702) 515-5350. Keep in mind that available spacing will fill up quickly due to the new format.

Check out our website for lesson plans, workshop information, and applications.
